

## Future Lighting Solutions Wins 2011 Best LED Service Provider Award

**SHANGHAI, CHINA (December 6, 2011)** – Future Lighting Solutions was recognized as the Best LED Service Provider for 2011, at the 8<sup>th</sup> annual LED Technology and Market Summit held at the Ritz-Carlton in Shenzhen on November 18, 2011.

The Summit hosted over 300 attendees and included more than 100 participating LED companies. Organized by OFweek, a survey was conducted via online voting and professional judges in the industry. Future Lighting Solutions was selected based on the company's wide range of services and products, including their Lighting Resource Centers and online design tools.

Future Lighting Solutions stood out from the many candidates considered, because of its proven success in facilitating LED applications, setting benchmarks in the LED industry, and for accelerating the development and adaptation, of LED products.

"We are very honored and pleased to receive this award. This recognition from the LED industry further deepens Future Lighting Solutions' ongoing commitment to provide quality services, products, and excellent programs to ensure our customers' success," said Aaron Wu, Future Lighting Solutions' Sales Director.

### About Future Lighting Solutions

Future Lighting Solutions is a leading provider of solid-state lighting technologies, engineering expertise and online simulation and design tools to facilitate application development and accelerate customers' time to market. Our comprehensive portfolio includes a broad selection of LED system components, as well as integrated or customized solutions to enable cost effective, energy efficient lighting applications.

From retrofitting bulbs to building LED systems from the ground up, we offer industry leading LEDs, optical solutions, power modules and ICs, passive and active thermal solutions, light engines, modular systems, planar lighting and remote phosphor technologies.

Our world-class team of lighting experts, along with our global lighting resource centers, supply chain solutions and network of specialized partners, ensures the highest quality solid-state lighting solutions for customers.

The company is a division of Future Electronics. For more information visit:
