Solid-State Lighting Expertise • Product Concept Development
Complete System Solutions • Sustainable Supply

LED Lighting for **Outdoor Wall Pack Lights**

Outdoor LED Wall Pack fixtures deliver a longer-lasting, energy-efficient and greener alternative to illuminating exterior building perimeters than conventional light sources.

Savings

ENERGY SAVINGS

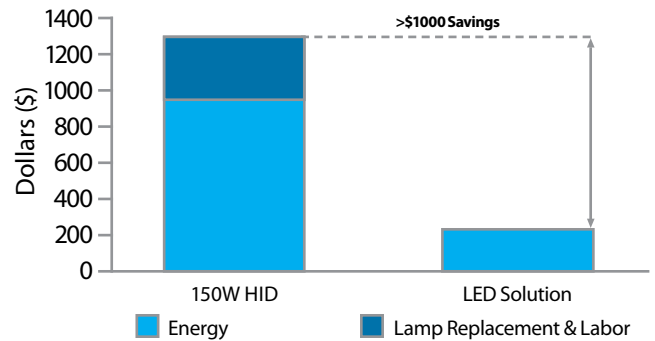

* 150W HID including driver losses

** Includes driver losses

- Significant savings of over 75% compared to HID

11 YEAR LIFE CYCLE SAVINGS*

* Fixture operates 12 hrs, 7 days a week (4380 hrs per year)

- Reduced energy, labor and lamp replacement costs

Energy Star Compliant

Recently, the lighting industry has seen several new legislative standards being implemented, Energy Star being one of them. The LUXEON® LED product portfolio has evolved and expanded to not only meet these requirements but to surpass them.

Benefits

- LED solutions perform above the 52 lm/W efficacy standard
- Maximum luminous flux in specified secondary solid angle zones can easily be achieved resulting in minimized glare, uplight or spillage
- LUXEON LEDs meet and adhere to the IESNA LM-80-08 standard (i.e LEDs achieve 91.8% and 94.1% lumen maintenance at 6K hours for residential & commercial applications respectively)

Eco-Friendly

Compared to traditional light sources, LUXEON LEDs are far more energy efficient. Moreover, their long life, compact size and chemical composition make it a very eco-friendly product.

Benefits

- Reduced coal and carbon emissions
- No harmful chemicals (mercury and lead free)
- Easier, cheaper and safer to dispose
- Diminished light pollution (Dark Sky friendly)
- Reduction of hazardous material (ROHS compliant)
