Solid-State Lighting Expertise • Product Concept Development
Complete System Solutions • Sustainable Supply

LED Lighting for **Commercial Refrigeration**

Consider the cold, hard facts: More than half of a supermarket's energy consumption can be attributed to refrigerated display cases, 15% of which is from the lighting alone.

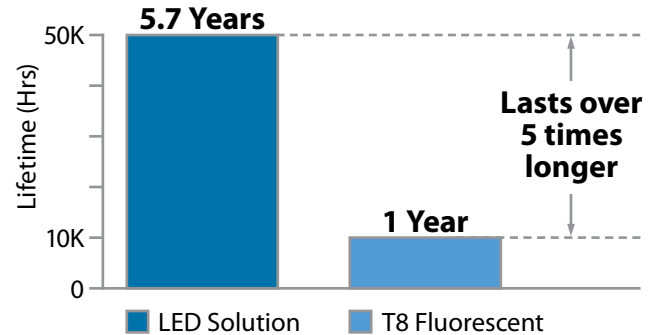

Savings

ENERGY SAVINGS

- Significant savings of over 66% compared to T8 Fluorescent

MAINTENANCE SAVINGS

- Reduced bulb replacement and labor costs

Enhanced Illumination

LUXEON® LEDs are directional light sources that allow for greater control to maximize efficiency and uniformity. They also provide a superior color rendering index (CRI).

Benefits

- Merchandise is more visible, appealing and accessible
- Natural colors of fresh fruits, vegetables and meats are accentuated
- Reduced glare
- Increased product sales and turnover

Eco-Friendly

LUXEON LEDs are far more energy efficient than other light sources. They emit no ultraviolet rays or infrared heat, and contain no mercury or lead. Their long life and small size means far less waste.

Benefits

- Reduced carbon emissions
- Easier, cheaper and safer to dispose
- Less radiated heat so safe to the touch
- Increased product shelf life and food preservation
